Summary: Naoko's strength has vanished from this world. And she'll never come to terms with it.

***Chapter 1*: the strength that I can not reach**

The day my child went missing was the worst one

The sense of loss went creeping down my soul

I thought of nothing else besides my dear son

My child was lost; I was no longer whole.

I searched throughout the world for where he could go

I searched and searched and searched for many days

I searched my heart and soul for all the strength there

But came back up with nothing but dismay

Then tell me; where did he decide to go to?

The others say that he's already dead.

I ask myself again this raging question

But it remains a truth I can not grasp.
